TRANSLATION of Swiss Patent No. 114863

Agent for Combating Vermin

The subject of the present invention is a vermin-fighting agent which is to be used especially for combating vermin in domestic animals.

It is characterized by the fact that it contains tar, tobacco extract, soda and resin soap. The agent can be prepared, for example, by mixing

5 gr tar  
5 gr soda  
5 gr resin soap

with the aqueous extract of 40 g of tobacco and diluting the mixture with water to make 100 cm<sup>2</sup>.

The agent permits the complete annihilation of the vermin, without harming the skin and hair of the animals.

CLAIM:

Vermin-combating agent, characterized in that it contains tar, tobacco extract, soda and resin soap.
